

Please know that the radio station K-LOVE serves our family and our local community by providing music that I know is SAFE for my entire family to listen to. They have high standards when choosing their music and there is no questionable lyrics or material at all. We travel a lot and it is comforting to know that we can find K-LOVE anywhere in the US. If K-LOVE were replaced, there is no other safe station that plays only music for my family or our community. K-LOVE is of public interest because it is listener-supported and provides excellent music without commercials. It is uplifting and encouraging for all ages.
